

**PROSPECTUS - ALTERATION
JUDICIARY CAPITAL SECURITY PROGRAM
VARIOUS BUILDINGS**

Prospectus Number: PJCS-0001-MU20

FY 2020 Project Summary

This prospectus proposes alterations to improve physical security in Government-owned buildings occupied by the Judiciary and the Department of Justice, U.S. Marshals Service (USMS) during FY 2020.

Since FY 2012, GSA has received \$126,700,000 in support of this program. These funds were allocated to 12 projects.¹

FY 2020 Committee Approval and Appropriation Requested..... \$20,000,000

Program Summary

The Judiciary Capital Security Program is dedicated to improving physical security in buildings occupied by the Federal Judiciary and the USMS. These projects are in lieu of constructing new facilities, thereby providing cost savings and expedited delivery. These projects will vary in size, location, and delivery method, and are designed to improve the separation of circulation for the public, judges, and prisoners. Funding provided for the security improvement projects will address elements such as adding doors, reconfiguring or adding corridors, reconfiguring or adding elevators and sallyports, and constructing physical or visual barriers.

Justification

This program provides funding to address security deficiencies in existing Federal facilities in a timely and less costly manner than constructing a new courthouse. The projects in this program are based on studies undertaken by the Judiciary. This prospectus requests separate funding to address security conditions at existing Federal courthouses. GSA uses the Judiciary's asset management planning process to assist in the identification of potential projects that involve courthouses with poor security ratings nationwide.

¹ These figures include one project in two Government-owned buildings that will be undertaken with FY 2018 appropriations received of \$20,000,000. GSA is awaiting Resolution of the FY 2018 Prospectus by the Committee on Environment and Public Works of the U.S. Senate before obligating these funds.
