

**PROSPECTUS - ALTERATION
CHILDCARE SYSTEMS AND SECURITY PROGRAM
VARIOUS BUILDINGS**

Prospectus Number: PCS-0001-MU25

FY 2025 Project Summary

This prospectus proposes to identify security vulnerabilities at each childcare center located in a GSA-controlled building and to expedite action to upgrade these buildings to the minimum-security standards.

Since FY 2022, GSA has received \$15,000,000 in support of this program. These funds supported 26 projects in 22 Government-owned buildings and 2 leases.

FY 2025 Committee Approval and Appropriation Requested\$14,250,000

Program Summary

As part of its childcare systems and security efforts, GSA currently is identifying projects in Federal buildings through physical inspection of security countermeasures and studies. These projects will vary in size and location. Typical projects include:

- Install, repair or replace, as necessary, blast protection and facade hardening, and security countermeasures to safeguard childcare centers from intruders

Justification

This program provides funding to address security vulnerabilities identified at various childcare centers in GSA’s inventory. The projects in this program are based on studies conducted by GSA. Completion of these proposed projects will improve the security vulnerabilities at the childcare centers.

Summary of Energy, Water, Sustainability, and Climate Risk Compliance

This project will be designed to conform to requirements of *PBS-P100, Facilities Standards for the Public Buildings Service*. GSA will focus on design and construction opportunities to increase energy and water efficiencies that minimize operating costs and greenhouse gas emissions, incorporate sustainable design principles into projects, reduce the environmental impact of materials, and address climate risk liabilities in a manner that is life cycle cost effective.
